

South Dakota **Career Peeks**

Take a peek at . . .

Fire fighters try to keep fires from happening.

When fires do happen, they work to save

peoples lives and their belongings. They connect

water hoses, set up ladders and may drive the

fire truck. Fire fighters also teach people about fire safety.

Use the pictures below of things a fire fighter would use to find the object the right size.

Loop the fire truck that is the **longest**.

Loop the fire hydrant that is the **tallest**.

Loop the fire that is the **widest**.

what you can become!
